## Live multi-tracking analog mixer

A recording device that can interface with Client's Studio using a single cable for live **multi-tracking multi-channel audio** capture for rehearsal and remote recordings

### Challenge

- High quality audio recording solutions are very expensive and Bulky. A low cost and portable solution is needed for Professionals.

### Outcome

- GadgEon designed the audio mixer HW, board bring up and certification support.
- Performance optimizations for simultaneous recording of 16 channels of high quality audio at 96kHz/32bitssampling
- Multiple device variants are ready available in US market
